The first-year students of the Department of Humanities organized an educational visit to the Life Change Rehab Charitable Centre located in Mota on 5th January 2024. In the centre, students visited different wards and seminar halls. They had the opportunity to not only observe but also to interact with the alcoholic and drug-addicted patients. They also interacted with the counsellor and learned about the problems faced by the patients, treatment processes and diagnostic methods employed at the centre. This visit provided students with a practical understanding of the challenges faced by the patients struggling with drug and alcohol addiction and offered students a valuable learning experience in observing, interacting and learning about the rehabilitation processes implemented at the centre.
