

Paper Presentation at International Conference on “Recent Innovation in Science and Workshop on Spectroscopy & its perspectives” in Mahesana, Gujarat on 15th -16th Sept. 2017”

- ❖ **Dr. Parth Joshi**, Assistant Professor, Department of Physics, Uka Tarsadia University has presented his research paper on “Synthesis, characterization and functionalization of multi-walled carbon nanotubes by chemical vapour deposition method” in conference.
- ❖ **Dr. Hardik Desai**, Assistant Professor, Department of Physics, Uka Tarsadia University has presented his research paper on “Comprehensive study on low energy electron scattering with pyrrole” in the conference.
- ❖ **Chirag Patel and Meet Vyas**, M.Sc. Student, Department of Physics have presented their research work on " Preparation and Characterization of Activated Carbon Produced from Azadirachta indica (Neem leaf)" in the conference.
- ❖ The International conference provides platform for all academicians, researchers, professionals, practitioners and post graduate students to exchange their latest research findings, new ideas and experiences face to face interaction, in order to commercialize their ideas and to establish business or research relations to strengthen their ties with global partners for future collaboration.

Chirag Patel, Meet Vvas, Dr. Parth Joshi(L-R)

Dr. Hardik Desai
