

Faculty of Commerce and Management, Uka Tarsadia University organized A “Skilling & Re-skilling” Workshop on Statistical Analysis using Statistical packages

Name of the Resource Person: Dr. Gaurang Rami

Designation/ Affiliation: Professor & Head, Department of Economics, VNSGU

Participants: Faculty Members of UTU

Date: July 8 2023

Time & Duration: 9:00 am to 4:00 PM

Venue: B-105

In order to train the faculty members regarding research and some advance Statistical analysis, Faculty of commerce and Management organized one-day workshop on Data Analysis using Statistical packages.

The session began with a welcome speech by Dr. Kiran Pandya, the Dean of the Faculty of Commerce and Management. Dr. Pandya introduced the speaker for the workshop, Dr. Gaurang Rami, and highlighted the significance of Statistical Analysis in the research journey of scholars.

Dr. Gaurang Rami, a distinguished scholar and Professor from the Department of Economics at VNSGU, Surat, then took over the session. Being well versed in Statistical Analysis, he familiarized the participants with several new commands and features of Statistical Packages. These included TURF Analysis, Online Analysis Processing Cube, Forecasting Technique, Missing Value Analysis, Use of Syntax File, and Decision Tree Analysis.

Dr Rami discussed and demonstrated application of advanced statistical techniques using statistical packages. These techniques are very useful for research scholars, faculty and teachers from Commerce, Management, Nursing, Biotechnology and other disciplines. The participants had the opportunity to receive hands-on training during the session.

Overall, the workshop was highly enriching and insightful, allowing the participants to learn from Dr. Rami's extensive knowledge and expertise in the field. It was a valuable opportunity for faculty members to enhance their skills and gain proficiency in Statistical Analysis.
