Total No. of Students: 110

Total No. of Faculty Participants: 04

Date: 04.03.2025

Time & Duration: 10.30 AM to 11.30 AM

Coordinator: Dr. Divya Gadaria, NSS Programme Officer, Ms. Heta Shukla, SRIMCA-MBA NSS Coordinator

Venue: C 105

The (NSS) unit of SRIMCA-MBA organized an impactful awareness campaign focusing on Thalassemia and Sickle Cell disease. This initiative took place on March 4, 2023, and was specifically designed for the first-year MBA student cohort. Dr. Divya Gadaria, the NSS Program Officer, and coordinator Ms. Heta Shukla led an informative session, providing detailed insights into the nature of these genetic blood disorders, their impact on individuals and communities, and the importance of early detection and prevention. The session aimed to educate students about the significance of screening and encourage them to take proactive steps towards their health. To facilitate this, students were invited to participate in a Thalassemia and Sickle Cell screening test, scheduled for March 10, 2025.
