

“Invited Talk @ GSBTM Sponsored Workshop”

Delivered an Invited Talk at C. G. Bhakta Institute of Biotechnology, UTU

By Dr Paresh N Patel (27th March 2018)

Dr Paresh N Patel was called as a Resource Person for the state level two days workshop entitled “Chemistry and Mathematics for Biologist” from 26th to 27th March, 2018 which was sponsored by GSBTM. It was a pleasure to be with the students and faculty members of C. G. Bhakta Institute of Biotechnology, UTU. Around 80 candidates participated for this workshop.

His talk was about “How to prepare buffer solution and what is the chemistry behind it?” He also spoke about preparation of solution with different concentration units and their importance in biology as well as chemistry.

There were many students from UG and PG courses of UTU as well as VNSGU affiliated collages, few research scholars and faculty members were also there. It was nice interactive session, participant asked many of their doubt about unit of concentration and buffer solution.

We would like to thank organiser and sponsor for inviting him as an eminent speaker in this workshop. Very nice hospitality was given by the organiser.
