DEPARTMENT OF
CHEMISTRY

Invited Speaker

Dr. Rajamouli Boddula from Department of Chemistry has received invitation as invited talk to discuss and give directions to the students who are seeking really assistance from the expertise. He has attended the expertise session and interacted with students. Dr. Rajamouli has delivered a talk on topic “*Chemistry and future opportunities*” on 17-05-2019 organized by Sri Vedha Junior College, Warangal, Telangana.

He is mainly focused on the higher education in India. Recently, in day to day life the role of the education is one of the brands. To solve this demand towards education many of the educational institutions are established since from Nalanda University (≈ 450 BC) to present prestigious IIT's, NIT's, IISc, NISER, IISER, NIPER, etc. In these educational system, ‘how to proceed’, ‘which one is suitable’ and other relevant information has discussed. Around 80 students are participated.

Highlights:

- Direction towards higher education
- Reputed national and international standards-Education
- Direct/personal interaction

They are sincerely appreciated the time he spent reviewing student career goals and recommending strategies for achieving. His advice was very helpful and gave them a new perspective on available opportunities (10:00 Am).

For the delivery of his experience and future opportunities, Dr. Rajamouli has received felicitation with certificate through a big applause.
