"Congratulations to **Dr. Sachinkumar G. Modha** for receiving invitation for keynote lecture at 100th Annual conference of the Chemical Society of Japan, Tokyo, March-2020"

Invitation to 100th annual conference of CSJ: Chemical society of Japan organizes a conference annually and this year in March they are having their 100th conference. Total around 8000 participants are expected to attend this big event. Asian International symposium will be organized under this event. Dr. Sachinkumar Modha has been invited to present his research work there as keynote lecture of 30 mins in the photochemistry session of the conference. Total 20 scientists from Asia have been invited for such presentation in the Asian International symposium. The CSJ has sponsored registration fees and accommodation.

Check the below link for further details about the 100th Annual conference of Chemical Society of Japan to be organized in March-2020, at Noda Campus, Tokyo University of Science, Chiba, Japan.

November 1, 2019

Prof. Sachinkumar Modha
Uka Tarsadia University
Department of Chemistry

Dear Professor Modha,

The 100th Annual Meeting of the Chemical Society of Japan will take place at Tokyo University of Science, Chiba, Japan in the frame of March 22nd -25th, 2020. Nearly 8,000 participants working in a wide range of chemistry areas are expected to gather on this occasion, and more than 6,000 papers will be presented there. We are planning the Asian International Symposium for Outstanding Scientists as a part of this meeting.

It is our great pleasure to invite you to participate in the Asian International Symposium as an invited lecturer. Approximately 20 young scientists from Asian countries will be invited. As well, some young Japanese chemists, some post-doctoral fellows staying in Japan, and some students studying abroad will join in this symposium. The purpose of this symposium is to promote the relationship among Asian chemists.

We hope that you will kindly accept our invitation and present a lecture on your state-of-the-art research. Further details will be provided by Prof. Tadashi Mori (Osaka University) (Symposium Chair, e-mail: tmori@chem.eng.osaka-u.ac.jp).

We hope you will be able to join us in the next spring in Chiba, Japan.

Sincerely Yours,

KAWAI, Maki
President
The Chemical Society of Japan
