REPORT ON INDUSTRIAL VISIT AT ACG ASSOCIATED CAPSULES PVT. LTD. DAHANU

Date & Time: 7th February 2026

Venue: Dr. Chunibhai Vallabhbhai Patel College of Pharmacy, Uka Tarsadia University

Organized by: Dr. Chunibhai Vallabhbhai Patel College of Pharmacy, Uka Tarsadia University, Bardoli.

No. of participants: 28

The purpose of the industrial visit was to expose students to the real-world pharmaceutical production environment and give them the chance to observe large-scale manufacturing operations. The purpose of this educational project was to improve student's comprehension of pharmaceutical manufacturing and quality assurance procedures by bridging the gap between theoretical knowledge and real-world industrial applications

The visit was organized by Mr. Hiren Rathod & Ms. Nikita Desai, Assistant Professor at DCVPCP with 28 students from 3rd year B.Pharm

Students were able to obtain a thorough understanding of the extensive operations conducted at ACG, a world-renowned leader in pharmaceutical packaging, capsule manufacturing, and related solutions, thanks to this visit.

TECHNICAL EXPOSURE AND EXPLAINATION BY AREA

Overview of ACG Capsules

One of the biggest producers of Hard Gelatin and HPMC capsules in the world, ACG Capsules, Dahanu serves the pharmaceutical, nutraceutical, and healthcare sectors worldwide. The facility conforms to international regulatory standards and follows strict Good Manufacturing Practices (GMP).

Operations in the Warehouse

The warehouse for raw materials and packaging materials provided an explanation of the following crucial elements:

- Methodical raw material receipt and segregation
- Material identification and traceability labeling system
- Storage conditions are kept at the proper humidity and temperature levels.
- Managed the flow of materials and paperwork
- Digital inventory management system usage
- Regulated and restricted access for personnel

Manufacturing and Production Division

The following thorough explanations of the capsule manufacturing process were given:

- Batch-wise material issuance and raw material dispensing
- Gelatin and polymer solution preparation
- Capsule shell manufacturing process using automated capsule machines
- Moisture control systems and drying tunnels
- Capsule trimming, joining, and inspection
- Colour coding and printing procedures
- Rejection management and in-process quality checks
- Sanitation and cleaning protocols observed in production areas
- Preserving Standard Operating Procedures (SOPs) and Batch Manufacturing Records (BMR)

Quality Assurance and Control

ACG students received a briefing on the significance of quality systems, which covered the following topics:

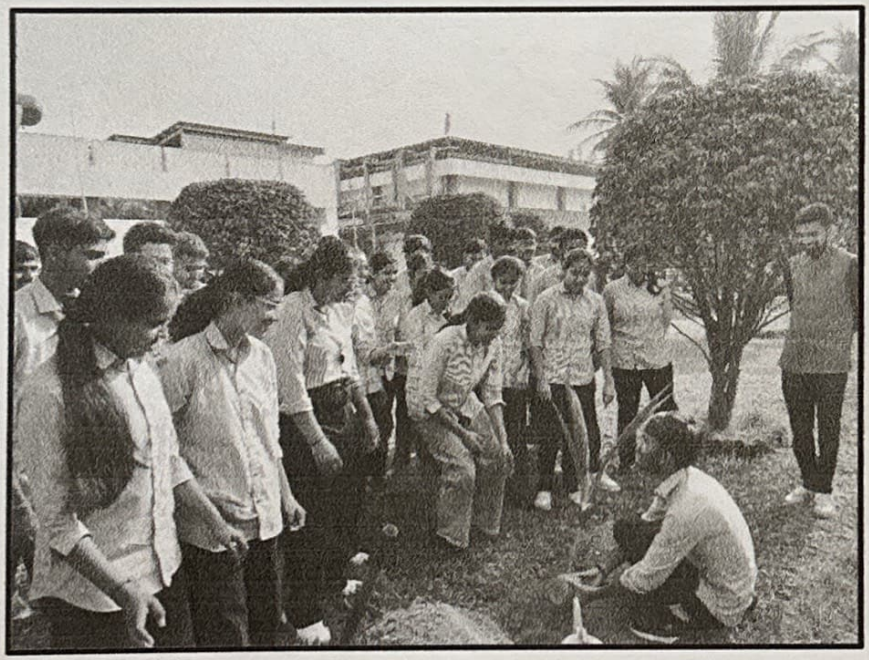
- Testing for in-process quality control (IPQC)
- Testing of capsules both chemically and physically
- Defect inspection, moisture analysis, and dimension checks

- Documentation procedures and stability studies
- Adherence to global regulatory guidelines, including those set forth by the USFDA

The area of packaging observed showed that:

- Automated capsule sorting and counting systems
- Packaging operation: Primary and secondary packaging
- Tamper-proof and Contamination-Free Packaging Practices
- Final inspection before dispatch
- Documentation and Batch Release Procedures

The students were provided with good support and gained valuable insights from the team at ACG during their visit. The students were able to interact with industry professionals and gained further information about their appropriate career opportunities alongside industrial expectations and regulations in pharmaceutical manufacturing.



List of Participants

Name of the Company: ACG ASSOCIATED CAPSULES PVT. LTD. DAHANU

Date: 7TH February 2026

Sr. No.	Name of Participants	Class Year	Signature
1.	Manish Kumar Pandit	3rd	
2.	Gini Patel	3rd	
3.	Niyati Hirenkumar Patel	3rd	
4.	Patil Himanshu Prakash	3rd	
5.	Sakariya Het Kalpeshbhai	3rd	
6.	Patel Diya Shailesh	3rd	
7.	YashKumar Alpeshbhai Lad	3rd	
8.	Bhavyaraj Milansinh Thakor	3rd	
9.	Kasak Jagdish Kumawat	3rd	
10.	Chopda Krutarth Manishbhai	3rd	
11.	Sneha Sanjaykumar Gandhi	3rd	
12.	Unnathi Nair	3rd	
13.	Yukta Patel	3rd	
14.	Reshma Shravanlal Pawar	3rd	
15.	Vinee Patel	3rd	
16.	Mandaliya Dharmik Sanjaybhai	3rd	
17.	Vrunda Sunil Patel	3rd	
18.	Siddharth Bhaveshkumar Darji	3rd	
19.	Shubham Patel	3rd	
20.	Patel Riken Rajeshkumar	3rd	R.R. PATEL
21.	Prajapat Jayesh	3rd	

22.	Mayur Choudhary	3rd	
23.	Ranveer Singh Rajpurohit	3rd	
24.	Bhavya V Butaney	3rd	
25.	Rajani Dharam Bhaveshkumar	3rd	
26.	Vedant Sojitra	3rd	
27.	Mali Palak Rajeshkumar	3rd	
28.	Gaudani Palak Devangbhai	3rd
