

IDEA TO IMPACT

A Symposium on Research & Innovation

Speakers: Dr. Furqan Maulvi & Dr. Jaymin Ray

Venue: Savita Auditorium, DCVPCP

08/08/2025 (Friday), 09:30 AM to 11:30 AM

Convener: Dr. Ashish D. Mishra (Principal)

Coordinators: Mrs. Binal Patel & Mr. Jigal Hirawala

Organized by Dr. Chunibhai Vallabhbhai Patel College of Pharmacy

Dr. Chunibhai Vallabhkhair Patel College of Pharmacy
Uka Tarsadia University, Bardoli

Report on Seminar

“Idea to Impact: A Symposium on Research & Innovation”

Date & Time: 08th August, 2025; 09:30 AM to 11:30 AM

Venue: Savita Auditorium, Dr.Chunibhai Vallabhkhair Patel College of Pharmacy, Uka Tarsadia University

Organized by: Dr.Chunibhai Vallabhkhair Patel College of Pharmacy, Uka Tarsadia University

No. of participants: 73

Dr. Chunibhai Vallabhkhair Patel College of Pharmacy, under SSIP club of Uka Tarsadia University, organized a seminar titled **“Idea to Impact: A Symposium on Research and Innovation”** on **8th August 2025** at the **Savita Auditorium, DCVPCP**. The event, held from **9:30 AM to 11:30 AM**, was graced by two distinguished speakers, **Dr. Furqan Maulvi** and **Dr. Jaymin Ray**, who shared their valuable insights on transforming innovative ideas into impactful outcomes in the field of research.

The symposium was convened by **Dr. Ashish D. Mishra, Principal of DCVPCP**, and coordinated by **Mrs. Binal Patel** and **Mr. Jigal Hirawala**, whose dedicated efforts ensured the smooth execution of the program. The sessions emphasized the significance of research, creativity, and innovation in academic and professional growth, motivating students and faculty alike to nurture their ideas and translate them into meaningful contributions to science and society.

Dr. Furqan Maulvi introduced the students to the process of research as a systematic method of finding answers to meaningful questions using scientific approaches and elaborated on a step-by-step guide to research, beginning with the identification of a research topic or problem, followed by conducting a literature review, defining objectives, planning appropriate methodologies, collecting and recording data, analyzing and interpreting findings, and finally concluding and communicating results with proper references.

Uka Tarsadia University, Bardoli

The session also underlined important principles for young researchers, including starting small, working in teams, consulting with guides, documenting every stage of research, maintaining strong ethical standards, and striving to present one's work at academic platforms. Dr. Maulvi's address left the students inspired and motivated, reinforcing the idea that research is driven by curiosity, discipline, and perseverance.

Another enlightening session was conducted by **Dr. Jaymin Ray**, who emphasized the importance of innovation and its role in driving meaningful progress. Sir explained that innovation can be aligned into four core types - product, process, business model, and marketing and highlighted the significance of focusing on one's own goals rather than comparing with others. Dr. Ray elaborated on key attributes of innovation such as novelty, originality, feasibility, and scalability, underscoring that the ultimate aim of innovation should be to solve real-world problems.

During this lecture, Dr. Ray also introduced the concept of Technology Readiness Levels (TRLs), particularly in the context of SSIP, and explained their importance in providing a structured roadmap for innovation and emphasized the role of TRLs in guiding researchers and innovators through different stages, from idea to implementation, while addressing aspects such as funding opportunities and risk management. The session concluded with an inspiring call to action, encouraging students to think, create, and inspire, thereby nurturing an innovative mindset that bridges ideas with impactful outcomes.

The event witnessed enthusiastic participation from faculty members, researchers, and students, who actively engaged in discussions and gained practical knowledge about research methodologies and innovation pathways. The symposium not only highlighted the importance of ideation but also focused on its translation into tangible impacts in pharmacy and allied sciences.

Overall, the program was highly enriching and inspiring, successfully fulfilling its aim of fostering a culture of research and innovation within the institution. It provided a valuable platform for interaction, knowledge sharing, and intellectual growth, leaving participants motivated to pursue impactful research endeavors.
